

K-Love radio has been instrumental in our families spiritual & social growth. Having 2 pre-teenage children it is a blessing to have a station that plays uplifting music that is not offensive in any way. All members of our local community benefit from such a station & I feel it is in the public interest to keep them on the air to provide the benefits of music you can count on to always be uplifting & inspiring commentary that is never inappropriate. I never have to be worried about what my children hear on this station.
